Harry Potter Day 2018

Harry Potter Day was a fantastic event in the Sumner Library on the 7th of February. It was a fun filled afternoon including prizes and games. We had many quizzes based on different aspects of Fantastic Beasts. Although some of the questions were hard my team accepted the challenge and soared through the quizzes despite the loud, passionate and slightly argumentative discussions we had! Unfortunately my team did not win but we were proud of our determination to try hard. We also had a mini Raffle at the end where one student won a gift bag that contained lots of lovely Fantastic Beast goodies. I really enjoyed this event and I am sure the rest of Year 7 did too. Most of all I would like to thank Mrs Simmons for hosting this spectacular event.

Becoming a Magizoologist

Our year 6 students became Magizoologists for the morning and created a fantastic beast that they would most like to study and here are some of their creations.

The Venomous Slitherwing has leathery bat-like wings, razor sharp poison tipped stinging tail and lives in a swamp.

The Big Eyed Boogle can hypnotise you to be kind to others as long as you live and lives in the sky on a rainbow.

The Pegasus is a mix of a unicorn, a pixie and a ballerina and can be found living in Mallorca.

The Magic is a creature that eats nice dreams and turns them into nightmares and can be found living in Britain.

A Swedish Short Snout can blow snow out of its nose to form a blizzard. You would find this creature in Sweden.

Did you know?

- ◆ A Crup looks like a Jack Russell Terrier
- ◆ An Augurey's cry foretells if it is about to rain
- ◆ The Snidget bird was once used in Quidditch matches in place of the Golden Snitch
- ◆ A Snallygaster is part-bird, part-reptile, has fangs of serrated steel and a bulletproof hide
- ◆ A Basilisk is bred by hatching a chicken's egg beneath a toad
- ◆ The feathers of a Jobberknoll are used in Truth Serums and Memory Potions
