The IB 'Core'

- All diploma students complete an **extended essay**, a 4,000-word project on a topic of their choosing. This requires independent research, as well as an ability to think widely around a subject.
- Students on an A-level programme will complete a comparable piece of work with the Extended Project Qualification (EPQ)
- IB students also take a course on critical thinking, called **Theory of Knowledge**, which nurtures the kind of open and inquiring mind that is needed at university
- Studied throughout the Diploma Programme, **CAS** involves students in a range of activities alongside their academic studies. These activities can be evidenced in a variety of creative ways
